### Updated Health and Safety Guidelines

The Chief Medical Officer of Health shared on Tuesday, November 10, 2020 that he will be providing updated health and safety guidelines for K-12 school settings. This includes providing more detail and clarity on some aspects of the existing guidelines, including physical distancing in classrooms and expectations around mask use in areas outside of the classroom where physical distancing cannot be maintained. The updated guidelines will be [posted here](#) on Yukon.ca and shared with school communities once they are available.

### Resources for Educators

#### Social Learning on Teams and OneNote

Teams and OneNote have rolled out new features that support social learning. Things like praise badges, sticker packs and Reflect messaging. All of the new features surround the goal of recognizing student social skills, grow their emotional vocabulary, and give valuable recognition in this new world of remote and hybrid learning. See the [attached blog post](#).

#### New Offsite Attendance Code for Aspen

The new Offsite attendance code is used to track students who are learning from a distance, and are scheduled in classes at your school. Please see [attached guide](#) on using the new Offsite attendance code in Aspen for office and teachers.

#### Innovation and Entrepreneurial Programming for High School Students

There is an opportunity for high schools with innovation/entrepreneurial programs to partner with Yukon University's innovation and entrepreneurship centre and the Rideau Hall foundation. The goal of the *Youth Innovation Challenge* is to inspire, encourage and celebrate the next generation of Canadian innovators and entrepreneurs. Up to 100 regional prizes will be awarded, from which 3-5 National winners will be selected. Prizes will be awarded in the form of financial and mentorship support to grow their innovations. If you are interested in this amazing opportunity for students, please contact Shelagh Rowles at [srowles@yukonu.ca](mailto:srowles@yukonu.ca).
