Orange Heart to Honor Indigenous Children

As we continue to reflect upon past events of intergenerational harms that have had lasting impacts on First Nations communities, we are committed to demonstrating our deepest condolences and acknowledgement of these events. Orange has become a symbol in Canada that conveys the message 'every child matters.' It stems from the Orange Shirt Day movement created by Residential School survivors that prompts meaningful discussion about the legacy of residential schools.

An orange heart is a gesture to honor the lives of the children who never returned home along with the families and communities who are mourning the discovery of their remains. As an expression of our commitment towards a better tomorrow, we encourage everyone to place an orange heart with a reflective word or message on it in the classroom or on a school bulletin board before September 29th. In following COVID-19 operational plans, we have attached an orange heart for you to print (on orange paper) and write your word or message.
